SHOW NAME, TITLE AND UNIT OF ADDRESSEE AND ADDRESSOR

TO: Distribution

DATE: October 31, 1990

FROM: J. M. Grana

SUBJECT: U.S.EPA VISIT - 10/31/90

At approximately 10:30 a.m. today, Mr. John McGuire from U.S.EPA, Region V visited Cerro with Tom Thompson and Ray Wichmann from Horner & Shifrin.

After a brief meeting with Paul Tandler I escorted the party to the East Outfall and the Building 19 Wastewater Plant. Mr. McGuire visited these two locations to inspect the Village pretreatment sampling locations. No other operations were visited and no samples were taken. Mr. McGuire had no remarks and made no comments.

The party left the plant at 11:05 a.m.

I want to commend those responsible for the appearance of both the East Outfall and the Wastewater Treatment Facility - both looked in top condition.

INTERNAL MEMORANDUM

HQ-10 SHOW NAME, TITLE AND UNIT OF ADDRESSEE AND ADDRESSOR

TO: Distribution

FROM: J. M. Grana

SUBJECT: U.S.EPA VISIT - OCTOBER 31, 1990

DATE: October 30, 1990

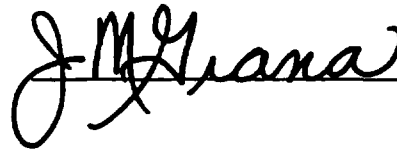

I received a phone call today from John Lauth of Horner & Shifrin to inform me that U.S.EPA will be making a surprise visit to industrial dischargers tomorrow, October 31, 1990, to inspect their discharge and sampling points for pre-treatment.

Mr. Lauth could not tell me who from U.S.EPA will be making the inspection, the time of the inspection, or if they will be taking samples. He also did not know if they will be inspecting our new discharge points, or the old manholes.

By copy of this memo, please make sure that pretreatment discharge and sampling locations are in order.

I will be escorting the inspection team when it arrives.
